3

From Do -

No 13242/7324/16/5/13

Submits a brief report on the work of the School, mentioning giving instruction in Sericulture during the past 3 years

5 The total number of ~~students~~ ^{School boys} that underwent a course in all the 6 centres during the 3 years was about 600. The progress made by the students in theoretical work is reported to be satisfactory but not so in practical work. The majority of the students do not take much interest in the subject. It is stated that it would be useful to start separate schools for teaching sericulture alone in selected centres of silk worm industries.

7 The Sencultural teaching imparted in the ~~at~~ schools has been of very little benefit & the scheme may be abandoned

As suggested by the Jg of Edu it seems better to have separate schools for senculture alone - both for boys & for adults - in silk growing centres. The Agricultural Committee of the E Conference is interesting itself in improving senculture & the establishment of these schools in a tentative manner maybe entrusted to that Committee

(StC + Deewan)

CSB
31/5/13

8 The idea was that the work should be done in places where there was already a silk industry established. Apparently this was not kept in view or at any rate the pupils were not selected from among those likely to follow the profession. As the Agt-Committee has appointed

From Shama Rao Esq
Offg Inspector General of Education in Mysore

To
C S Balasubramanian Esq B A
Secretary to the Government of His Highness the Maharaja
of Mysore Departments of Education Agriculture &c

Sir
With reference to our letter No 7294/Ldn 223-12-2 of the 14th
March 1913 I have the honour to submit herein a brief report on the
result of the working of the scheme during the past three years for
imparting instructions in Sericulture in certain schools

2 The total number of pupils that underwent a course in Sericulture
during the period in all the eight centres was about 600 The pro-
gress made by the students has been reported to be satisfactory as far
as the theoretical teaching was concerned but the practical work was
greatly hampered for want of facilities in regard to suitable ground
for growing mulberry leaves and suitable rooms for rearing worms &c

As regards the general working of the scheme it is reported that
the majority of the students in the Marathi and the Hindustani schools
where Sericulture is taught do not take much interest in the subject
as silk rearing is not the main occupation of their parents It is
further reported that it would be useful to start separate schools for
Sericulture alone in certain selected centres of silk-worm Industries
where all facilities could be provided

I have the honour to be
Sir
Your most obedient servant

GENERAL AND LEVINUF
SECRETARIAT

(Continuation sheet draft form)

In the G.O. of the 15th Sept. 1909
instruction in Sericulture is being
imparted in 8 Schools of General
education by ~~the~~ teachers trained
in the subject. The total number
of pupils that underwent a
course in the subject during the
past 3 years in all the 8 schools
was about 600. The progress
made by the students is reported
to be satisfactory in theoretical
^{knowledge} ~~teaching~~ but not ^{good enough} in practical
work. As regards the general
working of the scheme it is
stated that the majority of the
students do not take much interest
in the subject as silk reeling
is not ~~the main~~ ^{an} occupation
of their parents. The S.G. considers
that it would be useful to start
separate schools for sericulture
culture in certain selected centres
of silk worm industries where
all facilities could be provided
for practical instruction.

~~From the above it will be seen~~
~~that the Scheme has not been~~
~~working satisfactorily~~ Govt. therefore
 direct that the system of imparting
 instruction in Sericulture in
 the schools for General Education
 be discontinued. They note that

Consider that
 the scheme has
 not worked as
 satisfactorily as
 expected &

the Agricultural Committee of the Economic Conference has

appointed special inspectors
 and ^{has} been taking steps to
 diffuse ~~greater~~ knowledge
 of ~~the~~ sericulture among
 people interested following
 the industry. The suggestion
 of the I of A to start
 schools for sericultural
 schools is commended
 to the Agrl Committee

Order thereon No 3386 8 Edn 223-12-4
09.9.13

Under the scheme sanctioned in the G O of the 15th September 1909, instruction in sericulture is being imparted in 8 schools ~~of~~ general education by teachers trained in the subject. The total number of pupils that underwent a course in the subject during the past three years in all the 8 schools, was about 600. The progress made by the students is reported to be satisfactory in theoretical knowledge but not good enough in practical work. As regards the general working of the scheme it is stated that the majority of the students do not take much interest in the subject, as silk-reeling is not an occupation of their parents. The Inspector General considers that it would be useful to start ~~separate~~ schools for sericulture alone in certain selected centres of silk-worm industry, where all facilities could be provided for practical instruction. ~~The~~ Government consider that the scheme has not worked as satisfactorily as expected and therefore direct that the system of imparting instruction in sericulture in the schools for general education be discontinued. They note that the Agricultural Committee, of the Economic Conference has appointed special Inspectors and have been taking steps to diffuse knowledge of sericulture among people following the industry. The suggestion of the Inspector General of Education

to start Sericultural Schools is commended to the Agricultural Committee and

thus provisions will be made
